Developer 05/2024 - 07/2026

Giant Rabbit - Remote

- Full stack engineer at Giant Rabbit, a non-profit focused agency, on a wide array of tech stacks (e.g. Wordpress, Drupal, Backdrop CMS, React, Vue.js, Solid.js, Typescript)
- Redesigned and rebuilt Oregon Law Help's Guided Help tool
    - Led discovery client to identify goals, concerns, and the shortcomings of the app
    - Fixed issues accessibility, form design, and the vibe coded Vue.js
- Designed and built custom dashboard for UC College of Law, San Francisco
- Built Environmental Grantmakers website on Drupal 10 and CiviCRM

Principal Software Engineer 01/2022 - 04/2024
Senior Front-end Developer 01/2020 - 12/2021

Red Hat - Remote

- Pitched and led a project to reskin our documentation experience, which led to a **32 point NPS score increase** (from -17.5 to +14.6) over two quarters
- Floating front-end dev SME contributing to customer facing Drupal, React, Vue, Typescript, and Angular projects
- Created and maintained shared projects, including:
    - Navigation web component used on all Red Hat web sites, providing accessibility, analytics, and consistent functionality across all web properties
    - Web components libraries
    - Drupal 9+ Admin Theme used on most major sites

Senior Front-end Developer 08/2016 - 12/2019

Lullabot - Remote

- Lead front-end development of large-scale web projects, including: Carnegie Mellon University School of Computer Science (CMU SCS), AIChE.org, and SpaceX.com
- Scoped, scheduled and managed ongoing project work across 17 websites for CMU SCS, working directly with the client
- Built enterprise scale sites employing Drupal, React, and Vue.js
